RETURNIG LOYALTY IN ARKANSAS.

The prospect of a speedy return of the people of Arkansas to loyalty and submission daily brightens. Through recent intelligence received here, it is known that two Judges of State Courts under the Confederate rule have voluntarily come forward and taken the oath of allegiance, and a third was on his way to do likewise. ALBERT PIKE writes a pertinent epistle to his wife, hinting in quite strong terms his desire to return to ABRAHAM'S bosom, but expresses his doubts if he can do so under the Amnesty Proclamation.

Gen. STEELE has informed Mrs. PIKE that he will receive her husband should he present himself with loyal intentions.

THE FIVE-FORTY LOAN.

Secretary CHASE has decided to put the five-forty five per cent. loan into market at once, and the preparation of bonds has commenced. The issue of two year five per cent. coupon Treasury notes will be discontinued, and notes bearing the same interest, payable at maturity without coupons, will be issued in their stead. Coupon notes will be retired as fast as received into the Treasury, orders to this effect having been sent to-day to the Assistant Treasury at New-York.

THE BATTLE OF GETTYSBURGH.

Gen. HANCOCK, in his evidence before the Committee on the Conduct of the War respecting the battle of Gettysburgh, vindicated Gen. MEADE'S conduct in that affair. He returns to the front to-morrow.

THE NAVAL INVESTIGATION.

Investigations by the House Naval Committee still continue. Mr. QUINTARD, of the Morgan Iron Works, and CHARLES SEDGE, will be examined to-morrow respecting the construction of engines for the navy.

THE REVENUE.

The Sub Committee of Ways and Means will probably report entire the Supplemental Tax Bill on Tuesday next.

An unusually large number of bidders were present to-day to bid for furnishing flour to the Commissary Department. Offers were made for 96,000 barrels. The bids ranged from $7 60 to $8 80. Thirty-seven thousand barrels were taken at prices ranging from $7 60 to $7 73. Only No. 2 flour was accepted.

AN INTERESTING LAW CASE.

The case of the Santiago brig *Nardello* against MATILDA C. GRAY and others, a California land case, involving a large amount of valuable San Francisco land, was before the Supreme Court to-day, and excited more than ordinary interest. The opening argument was concluded by P. G. GALPIN, Esq., of New-York. Mr. CARLISLE will reply to-morrow.

The schedule increases the speed, so that the trip must be made in sixteen days during eight months in the year, and in twenty days for the remainder of the year; the contract to be for four years.

The newspaper and document mails are to be transmitted to the Pacific coast by sea.

PROCEEDINGS OF CONGRESS.

SENATE.

WASHINGTON, Tuesday, March 22.

SHIP CANALS IN THE WEST.

Mr. BROWN, of Missouri, (Union,) presented the resolution of the Union Merchants Exchange of St. Louis, praying for the construction of ship canals around the upper and lower rapids of the Mississippi River, the improvement of the Illinois and Michigan Canal, the construction of slack water navigation on the Illinois River, the construction of a ship canal around the Falls of Niagara, and the improvement of the New-York canals. Referred to the Committee on Commerce.

THE WEIGHT OF AMERICAN COPPER COINS.

Mr. CLARK, of New-Hampshire, (Union,) called up the Senate bill amendatory of an act relating to foreign coins and the coinage of cents at the United States Mint, approved Feb. 21, 1857, which was passed. The bill provides that the standard weight of a cent shall be forty-eight grains, or one tenth of an ounce Troy, and shall be composed of ninety-five per centum of copper and five per centum of tin and zinc; and that there shall be, from time to time, coined two cent pieces of the same composition, weighing ninety-six grains. The bill makes one cent pieces legal tender to the amount of ten cents, and two cent pieces to the amount of twenty cents. Prior to the passage of the bill, Mr. CLARK explained that the measure was necessary on account of the high price of nickel.

EXECUTION OF A TREATY.

Mr. SUMNER, of Massachusetts, (Union,) introduced a bill to carry into effect the treaty between the United States and Her Britannic Majesty for the final settlement of the Puget Sound and Hudson Bay Agricultural Companies. It appoints a commission to coöperate with a commission from Great Britain to investigate and adjust the claims, and appropriates $5,000 in full for salaries and expenses.

NINE MONTHS' TROOPS.

Mr. WILSON, of Massachusetts, (Union,) offered a resolution calling upon the Secretary of War for information as to how many nine months' men have been raised under the militia law of last Congress, how many of them were volunteers, and how many drafted; whether the $25 bounty has been paid to the nine months' volunteers; and, if not, why it has been withheld from any of them, and whether any bounty has been paid to any of the drafted men. Adopted.

FRENCH OCCUPATION OF MEXICO.

Mr. MCDOUGALL, of California, (Dem.,) submitted the following joint resolution:

Resolved, That the occupation of Mexico, or any part thereof, by the Emperor of France, or by the person indicated by him as Emperor of Mexico, is an offence to the people of the Republic of the United States of America.

Resolved, That the movements of the Government of France and the threatened movements of an Emperor improvised by the Emperor of France, demand of this Government, and insist upon war.

INCREASE OF THE MARINE CORPS.

Mr. HARRIS, of New-York, (Union,) introduced a bill for the increase of the Marine Corps of the United States. Referred to the Naval Committee. It provides for the increase of the corps by the addition of one Brigadier-General Commandant, five Captains, five Lieutenants, five Second Lieutenants, fifty sergeants, sixty corporals, ten drummers, ten fifers, and one thousand privates, the officers to be appointed first by promotion, then by selection.

THE INTER-STATE SLAVE-TRADE.

Mr. SUMNER, of Massachusetts, (Union,) from the Committee on Slavery and Freedmen, reported a bill to prohibit commerce in slaves among the several States, and the holding or transportation of human beings as property in any vessel within the jurisdiction of the Government. It punishes the misdemeanor of aiding such transportation among the States by land or sea by a fine of five thousand dollars and imprisonment of five years, and confiscates any vessel engaged in such transportation by sea.

PROMOTING ENLISTMENTS.

The bill to promote enlistments being called up, the question recurred on the substitute of Mr. WILSON to free the wife and children of a slave recruit.

Mr. WILLEY, of West Virginia, addressed the Senate. He said he was very desirous of voting for the amendment of Mr. WILSON, giving freedom to the wife and child of the colored recruit, but in the indefinite form in which it was brought before the Senate he was constrained to cast his vote for its recommittal to the Judiciary Committee. His objection to the amendment of Mr. WILSON was that it would lead to endless and distressing difficulty in the States where these slaves reside. He denied that the marriage relation amongst slaves was recognized in Virginia, and he believed the same was the case in Maryland. Under the amendment, in its present crude state, conflict would arise in the State Courts and much confusion ensue. It was for this reason that he desired that some means be devised to establish the identity of the person freed by the bill that he voted for its recommittal. Another reason was that the CONSTITUTION contained a clause which forbids the taking of private property for public uses without just compensation. He considered that the bill itself was founded upon the fundamental principle that there was property in slaves. He would like to see this constitutional provision for compensation incorporated in the bill, though he would never rest content while the wives and children of the men fighting our country's battles were held in bondage.

Mr. WILLEY then spoke in opposition to the bill of Mr. SUMNER to repeal the Fugitive Slave Act. He said it seemed singular that after the repeated decisions of the Supreme tribunals of the land during three-quarters of a century, it was now urged that this clause of the Constitution did not, and was not intended to apply to the rendition of fugitives. If the Honorable Senator from Massachusetts had introduced a bill to supply the place of the present law, he would have voted for it, but under the oath he had taken, it was his solemn duty to see that the plain provisions of the Constitution were carried into effect. Mr. WILLEY, at great length, defended his course on the Slavery question, quoting from PATRICK HENRY, Justice MARSHALL, JEFFERSON, MADISON and others, to show the gradual progress of Anti-Slavery ideas in his own State. Whatever, he said, may be our theoretical notions on the subject, the Constitution must be preserved. Slavery was an evil, but a broken, demoralized Constitution, a far greater one. In his opinion, the most effectual way of accomplishing the downfall of Slavery was by a vigorous prosecution of the war. In saying this, he did not mean to say that emancipation was the motive of the war. He was certain the Administration were not conducting it upon that idea. We should defend and maintain the integrity and dignity of the Constitution, and preserve the Union and equality of the States while we fight its enemies, and if in the struggle Slavery goes under, all good men will rejoice. One thing was certain. The rapid advance of our armies into the insurgent States would obliterate every vestige of Slavery. He referred to his own State as an example, and also to Missouri. Arkansas had crossed the Rubicon, and Louisiana was waiting on the shore; while Tennessee and North Carolina were beginning to feel the pressure of that enlightened public sentiment which demanded the extinction of Slavery in Maryland; and Delaware would soon follow in her wake. Every great victory obtained in the field is of more value than hundreds of Emancipation Proclamations and volumes of Confiscation Acts. We were engaged in the stern realities of war, and as we advanced Slavery would go down. He approved of the amendments to the Constitution now before the Senate to promote this object. He would have the subject postponed until the next Congress, because he believed that many of the States now in rebellion would then be represented in Congress by loyal men, who would gladly vote for the measure. He would gladly vote for these amendments at any time, believing they were demanded by every consideration of justice, by the history of the past, and the hopes of the future by the blood of the slain, by the genius of American liberty, by hatred of tyranny and love of freedom, and by the voice of the people.

Mr. HOWARD, of Michigan, (Union,) obtained the floor on the bill to prevent military interference with elections for 1 o'clock to-morrow.

The Senate went into Executive Session and adjourned.

HOUSE OF REPRESENTATIVES.

WASHINGTON, Tuesday, March 22.

GOVERNMENT USE OF PROPERTY.

Mr. ELIOT, of Massachusetts, (Union,) from the Committee on Commerce, reported a bill, which was passed, authorizing the Secretary of the Treasury to stipulate for the release from attachment or other process property claimed by the United States; in other words, to enable the Government to make arrangements to use the property it wants without waiting for legal process.

THE MURDER OF CAPT. REED.

On motion of Mr. RANDALL, of Pennsylvania, (Dem.,) a resolution was passed authorizing the Secretary of War to institute inquiries as to the murder of Capt. THEODORE REED, of Philadelphia, in Tangier Sound, Chesapeake Bay, by pirates.

NEGOTIATION OF INDIAN TREATIES.

The House then passed the Senate bill authorizing the President to negotiate a treaty with certain Indians of Southern Oregon for the acquisition of land, and appropriating $20,000 therefor.

CLAIMING AMERICAN BOUNTIES FOR FISH CURED WITH BRITISH SALT.

Mr. WASHBURNE, of Illinois, (Union,) from the Committee on Commerce, reported a bill, which was passed, requiring proof that fishermen have paid duty on foreign salt before being paid the bounties provided for by law.

The object of the bill is to prevent frauds on the Treasury, fishermen having procured salt for the curing of their fish in the British Provinces, and then claimed the bounties.

RARITAN AND DELAWARE BAY RAILROAD.

The House then resumed the consideration of the bill declaring the Raritan and Delaware Bay Railroads to be post and military roads of the United States.

Mr. STARK, of New-Jersey, (Union,) briefly opposed the bill, as violative of the laws of that State.

Mr. ROGERS, of New-Jersey, (Dem.,) regarded the legislation now proposed as an attempt to transfer the jurisdiction of New-Jersey over the State railroads to the Halls of Congress, and to set at naught the decision of the courts. There is no necessity, whatever, for such legislation, and if there was, no authority could be found in the Constitution of the United States to authorize the Representatives of other States to interfere with the local railway system of individual States. The "lobby" came hither to fill their pockets at the expense of the loyal people of New-Jersey, by pretending that this is a political measure. The stock of the Raritan and Delaware Railroad was not worth twenty cents on the dollar. He had been informed by a member of the Committee on Military Affairs, that this bill was not, as heretofore asserted, unanimously agreed upon, but that only five or six members out of the nine assented to it.

Mr. SCHENCK, of Ohio, (Union,) would like to know what member of the Committee gave the gentleman the information. It was understood that the report was concurred in by all the members of the committee.

Mr. ROGERS further opposed the measure.

No action was taken on the bill.

CARRIAGE OF FOREIGN MAILS.

Mr. ALLEY, of Massachusetts, (Union,) made a report from the Committee on Conference, on the disagreeing amendments to the bill for carrying the mails from the United States to foreign ports, which was adopted.

The principal point in controversy was adjusted by authorizing the Postmaster-General to suspend so much of the 8th section of the act of August 31, 1852, as authorized the conveyance of letters otherwise than in the mails, as in his opinion the public interests may require.

RECONSTRUCTION.

Mr. DAVIS, of Maryland, (Union) called up the bill, heretofore reported by him from the select committee on the rebellion, to provide a republican government in States overthrown or usurped by rebellion.

In his argument, Mr. DAVIS said the constituents of gentlemen would judge by their votes on this bill whether they believe the cause of the rebellion—namely, slavery—shall be rooted out, and whether they think the pending measure is one adequate and proper to accomplish that purpose. It proposes not the exercise of an arbitrary power, but a power within a fair construction of that part of the Constitution which imposes the duty of securing republican government to the States. Secession was not domestic violence, within the meaning of the Constitution, nor was it invasion. There could be no government within the United States which repudiates the authority and the Constitution of the country. When a military government is suppressed, it is time to think of another; therefore, the Constitution declares that the right of republican government shall exist, and what is opposed to republican government shall be put down. What is the condition of the rebellious States? Not one of them has been brought under the undisputed supremacy of the United States. There is not a State in rebellion whose soil is not pressed by rebels in arms. There is no portion of the rebel States where peace is so far restored that our military power can be withdrawn for a moment without instant insurrection. There is no rebel State from which our troops can be withdrawn and the people therein trusted. One-tenth cannot control five-tenths. No where exists willingness to control those who are opposed to a republican government. West Virginia is the only State permanently free from the rebellion. You have nowhere in the rebellious States a free, independent, and loyal population, willing to confront the rebels in arms and to fight in maintenance of the Constitution. We have heard much about the loyal masses of the South. What was their temper formerly and now? Although they voted against secession, they acquiesced in the decision of a doubtful majority. They wanted a union with peace, but when war ensued they preferred disunion. It was an extraordinary fact that in the Southern States, where a great revolution was inaugurated against their wishes and votes, not a sword was drawn by them. It was a revolution without a martyr and without a confessor, excepting the immortal PETTIGREW of South Carolina. We hear of the people being exhausted and anxious for peace. True, they were anxious for peace; but they want peace with independence—they are not for peace and union. There was no responsible authority for saying that any portion of the rebellious States are willing to accept the terms of peace which our political opponents offer them. Gov. SEYMOUR had said that peace could be procured on reasonable terms. It was only with that gentleman a wish—a good natural hope. What, then, are we to do? We must not erect a Government on shifting sands, to be supported by our arms, and for the people to turn against us when we are driven away or withdraw. It was to erect the throne of Chaos, and to let him sit there and reign supreme. Three modes had been proposed to settle the Slavery question; one to prohibit Slavery everywhere. This was right and went to the root of the evil. But it was doubtful whether three fourths of the States could be secured to pass such an amendment to the Constitution. The next was the Amnesty Proclamation. Congress is not pledged to its support, but only the Executive. The Government proposed by it is something as unknown to the Constitution as the rebel Government itself, which refuses to recognize it. If the proclamation is not valid, the oath is not of legal sanction. The oath adds nothing to the validity and force of that proclamation. It provides that the Government shall not contravene the Proclamation of Emancipation, which means that freedmen shall not be reënslaved, while slaves shall so remain. It does what the Constitutions of the old States do, and recognizes the existence of Slavery. Therefore the Constitutions of the old States do not contravene the proclamation of freedom. It was merely a judicial question. The time had come when we should not only disarm rebels, but strike the fetters from the slaves, and thus remove the cause of the rebellion. This, the bill under consideration proposed to do, and to give republican government to States which have been overthrown or usurped by rebellion.

Mr. BEAMAN, of Michigan, (Union,) argued that the rebellious States have ceased to have an existence under the Constitution; that where the local Government ceases, Federal authority may be substituted; that while he approved of the Amnesty Proclamation as a step in the right direction, it was inadequate to a safe reconstruction; that the proclamation did not provide for an amendment of the Constitution of the seceded States, thus leaving the institution of Slavery in existence, nor did it provide for any amendment of the Constitution and laws excluding traitors from the exercise of the elective franchise. The remaining nine-tenths might overthrow the one-tenth, and thus defeat the President's plan, there being no legally-provided means to prevent it. The reconstruction of these States was in the nature of admitting new States; but this proposed to the legislative and not to the judicial department. He also argued that there was nothing in the proclamation inconsistent with the provisions of the bill, as the latter was intended to carry out the design of the former, differing only in the extent to which the power should be exercised, and making the object to be secured more effective and permanent. He took the ground that none of the rebellious States should be readmitted unless they provide, by an organic law, that Slavery shall be prohibited forever; for this was the cause of the rebellion, and there could be no permanent peace so long as it was suffered to exist. The Constitution of the United States should be amended in this particular, in order to give freedom the national sanction, and to remove the cause of the troubles which now oppress the country.

The House, at 4 o'clock, adjourned.

FROM ALBANY.

The Work before the Legislature—A Questionable Method of Disposing of It—Relief of Contractors.

Correspondence of the New-York Times.

ALBANY, Tuesday, March 22, 1864.

The Assembly have taken very questionable action to-day. It has for some time been apparent that special effort must be made in order to dispose of the bills which have accumulated upon the files. There has been a strong desire to avoid the discredit of a grinding committee.

Mr. PARKER, of St. Lawrence, offered a resolution this morning, providing that bills, instead of being considered in Committee of the Whole, may, by resolution, be referred back to the standing committee reporting them, with power to report complete. This, it will be seen, is in effect giving committees the entire control with regard to the passage of bills. They will be considered only by a few men whose consideration is not subject to any revision except their own. The practical effect will be to enable five men, or the number who compose any committee, to pass any bill referred to them. The resolution giving this power was passed, with certain safeguards and exceptions, in regard to appropriation bills, and such bills as grant franchises.

A large number of bills were referred back under this resolution. As the thing progressed, and members eagerly improved the first opportunity to refer back their bills by special resolution, it became evident that members were uneasy at this new way of legislating. Mr. WEAVER, of Oneida, expressed the opinion that this method of proceeding was much worse than a grinding committee could be. Mr. ALVORD stated that it would be better for members to remain at the Capital legislating until Midsummer, than to resort to an irregular mode of doing business. Mr. PINCKNEY, of New-York, protested against the resolution, and declared that he would not willingly hold a seat in a Legislature that proceeded as the Assembly was proceeding under the resolution that had been adopted. After other members had made similar remarks, and an effort had been made to stop proceedings, which, however, failed, the House continued the business of referring back bills, and all the counties were gone through with in order, and members allowed to move the reference of any bills not appearing on their face to be of general interest. I hear no one speak of this method of legislation who do not condemn it, yet each member who has bills committed to his charge to get through this session, pleads necessity as his excuse for taking advantage of the resolution passed.

The Assembly discussed at length the bill providing that the contracting board may grant relief to contracting parties on the public works, who have suffered in consequence of the increase in the prices of labor and material. Important amendments to the bill, limiting its provisions were proposed. The general principle, which has come up in so many ways during the session, in regard to increasing compensation of State officers and employes, is understood to be involved in this bill. As so much is involved in it, a good deal of time will probably be devoted to its consideration. While the proposed amendments were under discussion to-day, the hour for adjournment arrived and no action was taken.

The Senate spent a large part of the session to-day in discussing the bill to incorporate the Union Trust Company in the City of New-York. The point of the discussion was mainly in regard to the necessity for another trust company, beside those now existing. The Senate were, as appeared from the discussion, convinced of the propriety of organizing such a company, with the exception of a few Senators. Progress was finally reported upon the bill.

THE WAR IN NORTH CAROLINA.

Gen. Pickett Somewhat Bothered—Gov. Vance and the Railroads—The Wilmington Blockade—Immense Supplies Received.

NEWBERN, N. C., Saturday, March 19, 1864.

The recent raid on Richmond caused the rebel Gen. PICKETT to send several of his regiments from this State to Virginia, just as he was ready to commence operations in this direction. These regiments are returning, however, evidently with a view of carrying out their original intentions.

Gov. VANCE, in one of his recent speeches, stated that Gen. LEE depends upon North Carolina for the support of his army. He dwells upon the importance of keeping the railroads in this State in good condition, on the ground that LEE could not remain in Virginia forty-eight hours after they should fail to perform their mission.

The Wilmington (N. C.) *Journal*, in speaking of the success of the blockade-runners in getting into that port, says that the statistics "for the past year show that on an average only one out of twenty have been captured. In rough weather the blockaders are obliged to go to sea, which, with the exception of dark nights, is the most auspicious time for our skillful pilots who, with the aid of our perfect system of signal lights, seldom miss their mark."

The report of Gov. VANCE, showing the amount of rebel supplies received through this blockaded port, discloses a most startling state of things. Everything the enemy could ask for is received through this channel in great quantities.

An experienced naval officer has remarked that, owing to the peculiar situation of the coast, its numerous channels embracing an area of thirty miles, the entire navy of the United States could not make the blockade of Wilmington effective.

THE WAR IN TENNESSEE.

Morgan at Decatur, Short of Horses—Longstreet Moving to Join Lee—Skirmishing Near Cumberland Gap.

FROM CHATTANOOGA.

LOUISVILLE, Ky., Tuesday, March 22,

The *Journal* has a special dispatch from Chattanooga, which says, on the authority of deserters, that JOHN MORGAN'S command is still opposite Decatur, and cannot be mounted from the scarcity of horses.

Deserters from LONGSTREET'S army say that he is doubtless moving to join Gen. LEE'S army.

FROM CUMBERLAND GAP.

CUMBERLAND GAP, Tuesday, March 22.

Lieut.-Col. DAVIS, of the Eleventh Tennessee Cavalry, who was wounded and taken prisoner on the 22d of February last, has escaped, and reached our lines safely. He was treated very inhumanly while in the hands of the rebels.

Two companies of the Ninety-first Indiana, while scouting up the Virginia Road, came upon the enemy's pickets, killing one and wounding another. They returned to camp last evening with four horses, wagons, arms, and seven prisoners, including the notorious rebel guerrillas and bushwhackers, GREEN and ESTLER, who have long been a terror to Union citizens.

THE WAR ON THE MISSISSIPPI.

Affairs at Cairo—Admiral Porter's Operations—Military Movements.

CAIRO, Ill., Tuesday, March 22.

The Seventeenth New-York Infantry arrived from below, to-day, en route home.

Adjutant-Gen. THOMAS is stationing troops, mostly colored, at the principal points along the Lower Mississippi River, to protect the plantations and trade depots.

Admiral PORTER left Vicksburgh last Saturday week, with a large number of gunboats and transports. Firing in the direction of the fleet was heard last Monday, at Natchez.

The Thirty-fifth New-Jersey Regiment is encamped here.

It is understood that a part of VEATCH'S division has arrived here. It has something to do with the contemplated military movement from this point, about which, however, nothing definite is known. The remainder of VEATCH'S division will reach here soon.

Movements of Lieut.-Gen. Grant.

PHILADELPHIA, Tuesday, March 22.

Gen. GRANT arrived this morning, and is now at the Continental Hotel.

During the entire morning there was a continuous stream of visitors to the General. Once he made his appearance upon Chestnut-street, was recognized, and the loud cheers that were uttered soon drew together quite a crowd. The hero was so pressed upon that it became necessary for the police to force a passage for him.

PHILADELPHIA, Tuesday, March 22—P. M.

Lieut-Gen. GRANT left at 7 o'clock this evening for Washington, in a special train. The Continental has been crowded all day by citizens desirous of paying their respects to him.

Gen. Sigel's "Narrow Escape" a Hoax.

BALTIMORE, Tuesday, March 22.

A dispatch from Cumberland authorizes an emphatic denial of the statement that Gen. SIGEL made a narrow escape from capture, a few days since, at Martinsburgh, by a body of 200 rebels, who passed between the General and the pickets. There is not a word of truth in the story. No apprehension is felt, at either Martinsburgh or Harper's Ferry, of any rebel demonstration.

PURIM.

GRAND FANCY DRESS BALL.

BRILLIANCY AT THE ACADEMY OF MUSIC.

Our Jewish Citizens in Their Glory.

Last evening the Purim Association gave their third Grand Fancy Dress Ball, at the Academy of Music. The Association was formed in 1862 by nine young men of the Jewish faith, its first ball was given at Irving Hall in 1862, its second at the Academy of Music in 1863, and its third at the same hall last evening.

The festival of Purim is one of the oldest and most important festivals recognized by the Jews, commemorating, as it does, one of the most important events in their history as a nation. It was instituted by Queen Esther and by Mordecai about the year 510 B. C., and commemorates the remarkable deliverance of the children of Israel from the tyranny and machinations of Haman, who was Prime Minister to King Ahasuerus, who reigned from India unto Ethiopia, over a hundred and twenty-seven provinces. Mordecai had been carried captive from Jerusalem, and with him the fair and beautiful maiden Hadassah or Esther, whom Mordecai, when her father and mother were dead, took for his own daughter. Esther being exceedingly beautiful and pleasing found favor in the eyes of King Ahasuerus, who married her and made her his Queen. About this time Haman was appointed to the high position of Prime Minister to the King, and he demanded and received homage from all except the Jew Mordecai, who not only refused to pay homage, but also refused to give any reason why he would not. Haman, highly incensed at the conduct of Mordecai, ordered made a gallows of extraordinary height, on which to hang him for the insult he had offered to one in high office and favored by the King. Queen Esther, hearing of this, informed the King of the relation which existed between her and Mordecai, and also of the great benefit Mordecai had done the King some time previous in informing of two men in his confidence, Bigthana and Teresh, who sought to lay violent hands upon the King and kill him. The King remembering all these things and the iniquity of Haman, ordered him hanged upon the gallows erected for Mordecai, placed Mordecai in the position held by Haman, made him chief over the house of Haman, and released the children of Israel from bondage. This was celebrated by great rejoicing all over the land and, in every way the joy and happiness of the people was exhibited. From that to the present the festival of this deliverance of the Jews has been celebrated by the most extravagant expressions of happiness, calling upon each other at their houses, in every dress and guise which could possibly add merriment or joy to the occasion, and using every means they could devise for the utmost enjoyment and celebration of this great and happy event. Of late years their number has so increased that time would not allow them to visit all the friends they wished, nor would their houses hold all the friends they wished to entertain.

To obviate this difficulty, nine young gentlemen of the Jewish faith, in the year 1862, organized the "Purim Association," the object of which was to collect all the parties together for the general enjoyment of the festival, and that all friends might meet. Thus far they have been particularly fortunate, nothing has occurred to mar their pleasure, and they have also by this means been enabled to do a great deal of good. Last year they presented to the Orphan Asylum and other charitable institutions a handsome sum, and this year they intend, first, to present to the Sanitary Fair a good round sum, and then take care of the charitable institutions, as is their custom. The officers of the association, who have been and are working hard and steadily for the promotion of this society and its good influence, and to whom, in a great measure, the success of the ball is due, are as follows: M. H. MORRIS, President; JOS. A. LEVY, Vice-President; A. H. SCHUTZ, Treasurer; A. L. SANGER, Secretary; B. LEMANN, H. H. STETTHEIMER, S. WEILL, L. G. SCHLOSS, T. HELLMAN, Directors.

The Academy was beautifully dressed; long lines of flowers were festooned along each tier, between the lights, and about the boxes vases and baskets of flowers in great abundance; over the third tier a beautiful drapery of orange and blue, ornamented with stars; at the back of the stage a large gas-light, on which, in a scroll, were the words "Merry Purim;" below it the monogram of the Society, and below the entire fixture, on the floor, a beautiful fountain, sending forth showers of cologne water, the exquisite perfume of which pervaded the entire hall, almost intoxicating the senses, and adding greatly to the luxury of the occasion.

The parquet was floored even with the stage, affording, with that, the most ample room for enjoyment of the dance.

The hall was crowded with a most brilliant assemblage, who entered into the enjoyments of the occasion with a zest seldom equaled; the costumes were very rich and beautiful; the diamonds worn by the ladies magnificent, and in brilliancy almost rivaled the bright eyes of their fair owners. Among the best of the characters represented were those of Mrs. Partington, Lucretia Borgia, Penobscot Squaw, Chippewa Chief, Joan of Arc, several beauties of the Court of Charles II., the Duke of Buckingham, Faust, a Priest, and several Jewish maidens. Merriment reigned supreme within the hall. Wives, well disguised, teased their liege lords almost to distraction; swe

Mr. EDWARD BILL notices the movements in Breadstuffs during the past fortnight thus: "The daily arrivals of Western Extra and family brands of Flour have of late been nearly sufficient to supply the limited wants of the City trade, and with the near approach of Spring, there is an increased desire to sell and reduce the Winter stock from store. Prices, in consequence, continue irregular and are lower on the fortnight. For the shipping grades of Extra State and Ohio, the English demand (with the late unfavorable advices) has been light, and buyers have had the advantage of 10c. to 15c. decline. At yesterday's market the trade was quiet, but there was more inquiry, chiefly for the British provinces. In Wheat the transactions have been light. The stock having become greatly reduced, holders of good shipping qualities of Spring and Winter are not ready sellers, and are disposed to ask rates that exporters are unwilling to pay in the face of the declining market in England. Rye is inactive, and without much change in value. Oats are in fair demand. For Indian Corn there is no shipping inquiry, the trade being confined to the wants of the City and Government. With more free supplies of new, the price of old and new are both a few cents lower. The Export Clearances from this port for the fortnight foot up, to Great Britain and Ireland, 20,961 bbls. Flour, 387,882 bushels Wheat. To Portugal, 300 bbls. Flour, 35,593 bushels Wheat. To Gibraltar, 994 bbls. Flour. To Brazil, 5,133 bbls. Flour. To Mexico, 2 911 bbls Flour, 21,855 bushels Corn, 2,200 bushels Oats. To Continental Ports, 2,953 bbls., 7,198 bushels Wheat. To all other Ports, 23,569 bbls. Flour, 155 bbls. Rye Flour, 5,003 bbls. Corn Meal, 5,009 bushels Corn, 1,423 bushels Oats, 932 bushels Peas. Making a total of 57,995 bbls. Flour, 430,673 bushels Wheat, 26,865 bushels Corn, 3,623 bushels Oats, 5,003 bbls. Receipts of Petroleum since our last, 1,441 bbls. Messrs. TURNER & GRIEVES say: "The delay in the action of Congress upon the Internal Revenue question has checked the upward tendency of the market for Petroleum, and, in fact, has produced a slight reaction, which exporters have availed themselves of in some instances, some four cargoes having been engaged here for shipment to Europe, but in general our prices are above the limits of shippers. We quote Crude at 30c.@31c. for gravity 40°@47°. Refined, in bond, 49c.@51c.; and Refined, free, 58c.@62c., the latter closing with much strength. TALLOW—Sales since our last 180,000 lbs., at 12¾c.@12½c. ℔ lb. The week's business, Messrs. Anthony & Sons notice thus: "Since our last report our market has been steady, although transactions have not been very numerous, owing to fluctuations in the foreign Exchange market. During the forepart of the week there were some sales of Prime Western in bbls. and hhds. at 12½c. In City Rendered there is very little doing; melters are asking 12¾c., but that figure cannot be obtained except for a strictly prime article. The demand for home use is quite moderate, we note some sales at 11¾c. for a good article of No. 2 Soap Tallow. The arrivals of Western and Eastern are not numerous, and the stock in this City is being greatly reduced. The demand for White and Yellow Grease is active, and both are scarce, and a good article would find ready sale at our quotations. The prices of all kinds of Western produce are most likely to rule high for some time, owing to the small stock here and also at the West. At the close of the market to-day prices were firm, and we quote: Prime brands at 12½c.@ 12¾c., and some favorite brands would bring 12¾c. Prices this day 1858, 10¾c.; 1859, 10¾c.; 1860, 11c.; 1861, 9¾c.; 1862, 8½c.; 1863, 12¾c. ℔ lb."

WHISKY—Has been unusually active since our last, and has advanced materially. Sales have been reported of 4,800 bbls. State and Western, at 93c.@ 95c., closing buoyantly at 95c. ℔ gallon.

FREIGHTS.—A moderate business has been transacted to-day at, in some instances, firmer rates. For Liverpool, 21,000 bushels Wheat were engaged at 3½d.@4d.; 200 tcs. Beef at 4s.; 50 tons Oil Cake at 10s.; 100 ℔ds. Tallow at 16s.; 40 tons Cedar at 10s., and 2,300 boxes Bacon at 15s.@22s. 6d. by sailing vessel, and 30s. by steamer. For London—200 bbls. Pork at 2s. 3d.; 500 boxes Bacon at 17s. 6d. @25s., with some reported as high as 30s.; 30 bbls. Oil, at 25s. For Glasgow—5,000 bushels Wheat, at 5¾d.; 100 tcs. Lard on private terms. ELWELL, broker, quotes: "To London—Flour, 1s. 9d. by Americans, and 2s. by neutral vessels; Wheat, at 5¾d. by American, and 6¾d. by neutral vessels; heavy goods, at 17s. 6d. by American, and 20s. @22s. 6d. by neutral vessels. "THE PEN IS MIGHTIER THAN THE SWORD."

THE GOLD PEN—THE BEST OF ALL PENS,

MORTON'S GOLD PENS,

THE BEST PENS IN THE WORLD.

On receipt of any of the following sums in Cash, the subscriber will send by return mail, or otherwise, as directed, a Gold Pen or Pens—*selecting the same according to description*, viz.:

GOLD PENS WITHOUT CASES.

For 25 cents, the Magic Pen; for 38 cents, the Lucky Pen; for 50 cents, the Always-Ready Pen; for 75 cents, the Elegant Pen; and for $1, the Excelsior Pen. These Pens are not numbered, but correspond in sizes to Numbers 2, 3, 4, 5 and 6 respectively.

THE SAME PENS IN SILVER-PLATED EXTENSION CASES, WITH PENCILS.

For 50 cents, the Magic Pen; for 75 cents, the Lucky Pen; for $1, the Always-Ready Pen; for $1 25, the Elegant Pen, and for $1 50, the Excelsior Pen.

These are Well-Finished, Good-Writing Gold Pens, with Iridosmin Points, the average wear of every one of which will far outlast a gross of the best Steel Pens, *although they are unwarranted, and, therefore, not exchangeable.*

MORTON'S WARRANTED PENS.

The name "A. Morton," "Number" and "Quality," are stamped on the following Pens, and the points are warranted for six months, except against accident.

The numbers indicate size *only*: No. 1 being the smallest, No. 6 the largest, adapted for the pocket; No. 4 the smallest, and No. 10 the largest Mammoth Gold Pen, for the desk.

Long and medium Nibs of all sizes and qualities. Short Nibs of Numbers 4, 5, 6 and 7, and made only of first quality.

The Long and Short Nibs are fine pointed; the Medium Nibs are broad, coarse business points. The engravings are fac-similes of the sizes and styles.

GOLD PENS WITHOUT CASES.

For $0 75 a No. 1 Pen, 1st quality; or a No. 3 Pen, 2d quality.

For $1 a No. 2 Pen, 1st quality; or a No. 3 Pen, 2d quality; or a No. 4 Pen, 3d quality.

For $1 25 a No. 3 Pen, 1st quality; or a No. 4 Pen, 2d quality; or a No. 5 Pen, 3d quality.

For $1 50 a No. 4 Pen, 1st quality; or a No. 5 Pen, 2d quality; or a No. 6 Pen, 3d quality.

For $1 75 a No. 5 Pen, 1st quality; or a No. 6 Pen, 2d quality.

For $2 25 a No. 6 Pen; $2 75 a No. 7 Pen; $3 25 a No. 8 Pen; $4 a No. 9 Pen; $5 a No. 10 Pen; all 1st quality.

THE SAME GOLD PENS, IN SILVER EXTENSION CASES, WITH PENCILS.

For $1 50 a No. 1 Pen, 1st quality; or a No. 3 Pen, 2d quality.

For $2 50 a No. 4 Pen, 1st quality; or a No. 5 Pen, 2d quality; or a No. 6 Pen, 3d quality.

For $3 a No. 5 Pen, 1st quality; or a No. 6 Pen, 2d quality.

For $3 50 a No. 6 Pen, 1st quality.

GOLD PENS, ALL FIRST QUALITY, IN SILVER-MOUNTED DESK-HOLDERS.

For $4 a No. 8 Pen; for $5 a No. 9 Pen; and for $6 a No. 10 Pen.

The "1st Quality" are pointed with the very best Iridosmin Points, carefully selected, and none of this quality are sold with the slightest imperfection which skill and the closest scrutiny can detect.

The "2d Quality" are inferior to any Pens made by him previous to the year 1860.

The "3d Quality" he intends shall equal in respect to Durability, Elasticity and Good Writing Qualities (the only true considerations) any Gold Pens made elsewhere.

In regard to the Cheap Gold Pens, he begs leave to say that, previous to operating his New and Patented Machines, he could not have made as Good Writing and Durable Pens for the price, had the Gold been furnished gratuitously.

Parties ordering must in all instances specify the "Name" or the "Number" and "Quality" of the Pens wanted, and be particular to describe the kind they prefer—whether stiff or limber, coarse or fine.

All remittances sent by mail in registered letters are at my risk; and to all who send twenty cents (charge of registering,) in addition to the price of goods ordered, will guarantee their safe delivery.

Parties sending Gold or Silver will be allowed the full premium on the day received.

TO CLUBS—A discount of 10 per cent. will be allowed on sums of $12, of 15 per cent. on $24, and of 20 per cent. on $40, if sent to one address at one time.

OFFICE OF THE DELAWARE, LACKAWANNA AND WESTERN RAILROAD CO., NEW-YORK, March 16, 1864.

This Company will hold their Fourteenth Regular Monthly Auction, on WEDNESDAY, the 30th day of March, 1864, at 12 o'clock, noon, at the office of the Company, No. 35 William-st., at which time they will offer, by SIMEON DRAPER, Auctioneer,

TWENTY-FIVE THOUSAND TONS OF FRESH MINED SCRANTON COAL,

embracing all the usual sizes, and deliverable at their depot, Elizabethport, N. J., during the month of April next.

The sale will be positive. Each lot put up will be sold to the highest bidder; no bids, in any form whatever being made for account of, or on behalf of the Company.

Fifty cents per ton in bankable funds, to be paid at the time and place of sale, and the balance in like funds on receiving the order for the coal, which must be called for within ten days thereafter, and the coal taken away within thirty days from the day of sale, unless navigation is obstructed. Buyers who wish, however, can have an additional thirty days for taking the delivery of their purchases, by making a further deposit of fifty cents per ton within the ten days above specified. Interest at 7 per cent. per annum will in such case be charged on the balance, from the time stipulated for payment until paid, and twenty-five cents per ton to cover the expense of stocking the coal—both to be paid on delivery of order.

The coal will be delivered direct from the cars on their arrival from the mines, when practicable—otherwise from the stock. NEWS OF THE DAY.

THE REBELLION.

Newbern, N. C., advices to the 19th inst., mention that a great commotion was caused among the rebel troops in that region when Richmond was menaced by Gen. KILPATRICK. PICKETT, the rebel General, sent off several of his regiments in great haste to defend the city, and stopped pending military operations within his command. These regiments are now reported to be coming back. In one of his recent speeches Gov. VANCE urges the importance of the North Carolina railroads to the preservation of LEE'S army, and says that should they be destroyed the troops could not remain in Virginia forty-eight hours. The Wilmington *Journal* has an article on the success of blockade-running, which it fortifies with statistics showing that only one out of twenty blockade-runners have been captured. An experienced rebel naval officer is reported to have said that, owing to the peculiar situation of the channels leading to Wilmington, embracing an area of thirty miles, all the vessels of the United States Navy would be insufficient to prevent the illicit trade.

A special dispatch from Chattanooga to the Louisville *Journal* says, on the authority of deserters, that JOHN MORGAN'S command is still opposite Decatur, Ala., and cannot be mounted from the scarcity of horses. Deserters from LONGSTREET'S army say that he is moving to join Gen LEE'S army.

Official advices lately received at Washington, from Arkansas, state that there is a steady return there of citizens to their allegiance, many prominent rebel officials being among the number. Gen. ALBERT PIKE has, it is averred, made overtures for an amnesty.

Gen. GRANT arrived in Philadelphia, yesterday morning, and proceeded to Washington last evening.

CONGRESS.

In the Senate, yesterday, Mr. HARRIS presented the remonstrance of the members of the New-York Legislature against the extension of the Goodyear patent. Mr. CLARK, of New-Hampshire, called up the bill relative to the weight and character of American copper coins, which was passed. The bill authorizes the issue of bronze two-cent pieces. Mr. WILSON, of Massachusetts, offered a resolution calling upon the Secretary of War for information as to how many nine months' men have been raised under the militia law of last Congress, whether the $25 bounty has been paid to them, and, if not, why it has been withheld from any of them, and whether any bounty has been paid to drafted men, which was adopted. Mr. MCDOUGALL, of California, offered a series of resolutions, deprecating the French occupation of Mexico. A bill was introduced for the increase of the United States Marine Corps. Mr. SUMNER introduced a bill to prohibit the inter-State slave-trade. The bill promoting enlistments came up, when Mr. WILLEY spoke at length, when the Senate adjourned.

In the House yesterday, a resolution was passed, directing the Secretary of War to inquire into the recent murder of Capt. REED, of Philadelphia, by pirates on Chesapeake Bay. A bill was reported from the Committee on Commerce, requiring proof that fishermen have paid duty on foreign salt before being paid the bounties provided for by law. The Delaware Bay and Raritan Railroad Bill came up, and was opposed by Messrs. ROGERS and STARK, of New-Jersey. Mr. DAVIS, of Maryland, called up the bill heretofore reported by him from the Select Committee on the Rebellion, to provide a Republican Government in States overthrown or usurped by rebellion. Mr. DAVIS proceeded to argue against any attempt to reestablish governments in rebellious States until the rebellion is finally and totally extinct—against, in brief, the President's, and all other plans of reconstruction, which do not reduce the States to territories.

STATE LEGISLATURE.

In the Senate, yesterday, a variety of matters were under consideration, among them a bill authorizing the construction of a subterranean railroad in this City. Bills were passed to establish an Asylum for Inebriates in New-York, and for the better regulation of the State Inebriate Asylum; also, for the improvement of the Seventh-avenue, New-York. The bill incorporating the Union Trust Company was ordered to a third reading. The Assembly resolutions proposing to send for exhibition at the Metropolitan Fair sundry curiosities from the State Cabinet of Natural History, was adopted.

In the Assembly a resolution was adopted suspending the rules so that local bills and bills not conveying franchises or making appropriations from the treasury, might be referred to committees with power to report complete, and a number of bills were so referred. The following bills were advanced to a third reading: To incorporate the Central Park Hotel Company; to incorporate the New-York Land and Drainage Company; to increase the fees of Justices of the Peace; for the detection of Counterfeit Bank Notes; to incorporate the Tom Moore Association, New-York; to incorporate the Americus Club; to incorporate the American Literary Fund Association of New-York; to incorporate the New-York Grand Hotel Company. The Speaker presented a communication from the Clerk of the Common Council, calling attention to the necessity of passing an act at an early day, empowering the Corporation to raise money by tax. The Soldiers Voting Bill was made the special order for Thursday next.

GENERAL NEWS.

At the meeting of the Commissioners of Health, yesterday, a communication was received from the City Inspector, in regard to the prevalence of ship fever in certain localities of the City, which is attributed to an unusual amount of emigration, and large numbers of emigrants taking lodgings in the narrow by-streets. The City Inspector says he has done all in his power to prevent the spread of disease, and invokes the aid of the Commissioners of Health, and, if necessary, of the Board of Health, to take further precautionary measures. Mr. BRADY, the Deputy Superintendent of Sanitary Inspection, appeared before the board and gave a detailed account of the action taken by the City Inspector's Department to purify the places where the infection exists. On suggestion of the President, (Mayor GUNTHER,) it is understood the medical members of the board were directed to draft an ordinance embodying such regulations as they may think are necessary to further combat the disease. This action implies that the Mayor may soon convene the Board of Health.

At the Academy of Music, last evening, came off the most brilliant fancy dress ball ever given in this City. It was an invitation ball, under the auspices of the Purim Association, which is composed of those of Jewish faith, and was, in the character of the assemblage, the costumes and the enjoyment, an event to be remembered.

The Sixty-second New-York Volunteers, recently arrived from the Army of the Potomac, were formally received yesterday by the Mayor and Common Council in the City Hall Park. After a review by the City authorities, they were escorted to the Jefferson Market Drill-rooms by the Seventy-first New-York, where an elegant dinner was prepared for them.

An application to bail a man named EDWARD GOMEZ, arrested for giving aid and comfort to the enemy, was made yesterday before Commissioner OSBORN. GOMEZ was charged with having entered into a contract with the Richmond Government to furnish the rebels with gun fuses and other munitions of war. The Commissioner held him to bail in the sum of $10,000.

The First Regiment New-York Engineers arrive here to-day on furlough. They have reënlisted. A reception will be given them by the Common Council, the Seventh Regiment acting as escort.

The destruction of the church in Elmira where the "Southern Tier" Sanitary Fair was in progress, was complete. FREDERICK HART, son of a merchant in the place, is supposed to have been burned to death. Mr. M. CONVERSE, an old man aged 70 years, received injuries which will probably prove fatal, and a number of others were severely burned.

The Rochester *Democrat* of Monday states that the Board of Directors of the Western Union Telegraph Company have been in session at their office in this city for some days past, and it is understood, have transacted some very important business. Besides the acceptance of the valuable grants from the British and Russian Governments, by which a very speedy connection is to be effected between the Western Union and the Russian lines, a consolidation has also been made of the Western Union and the Pacific Telegraph Company. The terms are said to be advantageous to all concerned in the consolidated lines. The details of the plan for putting up the wires along the Pacific up to Behring Straits are under consideration, and it is said that vessels will be prepared to sail in a few weeks with all the requisite materials for carrying this gigantic telegraph enterprise into immediate completion.

The Washington *Star*, of Monday, says: "The city was full, yesterday, of rumors concerning rebel movements in front, and toward evening they took the shape of a story that STUART'S cavalry had appeared in force at Manassas, cutting the connection with MEADE'S army, and causing a general withdrawal of stock, (this side of Manassas Junction,) &c., on our part on Alexandria. We can learn nothing this morning to confirm the story, and presume that if any stock has been brought to Alexandria, it has been merely a precautionary move in case the rebels should have any raiding designs on the road."

The name of the Invalid Corps is, by order of the War Department, changed to that of Veteran Reserve Corps, which sounds more pleasantly to the officers and the commands.

The Live Stock markets show a light supply of animals—15,000 less than last week. There is a decrease of each kind, and a corresponding uniform advance in price. The cool weather made a brisk demand, and everything has been sold off. ....Beeves count up 3,859 fresh animals and 400 stale cattle for the week, 3,413 of them at Forty-fourth-street, most of which were sold Monday, ½c. higher than the rates of last week. The few disposed of Tuesday brought full prices. Some of the best cattle, very fine, it is true, brought 16c. ℔ lb., to be weighed, while others, at $160 each, were quite as high. The prevailing rates of good steers, weighing 7 cwt.@7½ cwt., were 14c.@15c. ℔ lb. Some unripe, thin animals were sold at 10c.@11c., though very few went under 12c. ℔ lb., the whole averaging over 13c....Sheep are very scarce and command nearly 1c. ℔ lb. more than last week, with quick sales. Good lots bring 9½c.@9½c. ℔ lb., live weight. Receipts for the week only 5,511....Live hogs are not selling quickly, though in limited supply, the arrivals for the week being 6,776, a large portion of them light and poor. Fat corn-fed hogs are worth 8½c., and still hogs 8c., which is an advance of ½c. over last week.

Flour and Wheat were in fair request yesterday, at firmer rates. Corn was depressed and much cheaper. Provisions attracted more attention, including Bacon, Beef and Butter, which were quoted higher. Whisky was unusually active, at advanced prices. Groceries were in fair demand, as were also Hay, Tallow and Tobacco. Cotton was heavy and unsettled. Metals were less sought after and less buoyant. An extensive speculative movement was reported in Cigars, at rising prices. Moderate freight engagements were effected.

The Stock market left off firm yesterday. Gold was a fraction higher than on Monday. Money in easy supply.

THE GOVERNMENT AND COLONIZATION.—The *Herald*, in a dispatch from Washington, speaking of the "recently exploded colonization scheme" in the Island of Vache, says that "prominent among the parties interested in it are understood to be LEONARD W. JEROME and HENRY J. RAYMOND, of New-York." So far as the person last named, at least, is concerned, there is not the slightest foundation for the statement. He has not now, never did have, and never expects to have, any interest whatever, direct or indirect, positive or contingent, immediate or remote, actual, probable or possible in this scheme, or in any other contract, project or proceeding with which the Government is in any way connected. Mr. JEROME'S interest, we believe, is limited to having expended, in connection with Messrs. FORBES and TUCKERMAN, with whom the agreement by the Government was made, some sixty or seventy thousand dollars, in an effort to carry out the proclaimed views of the Government on the subject of colonization,—without having received in return a single dollar of the money which the Government agreed to pay.

The Secretary of the Interior, in his recent letter to Congress, congratulates the country on the failure of this colonization project. How much he has had to do with causing its failure, how carefully he has so managed matters as to secure the defeat of the scheme, which he professed to be aiding, he does not state. It would be well, however, for individuals who may feel inclined hereafter to second and aid the supposed wishes of the Government by investments of money and personal effort, first to ascertain, if possible, whether, the Government really wishes its professed policy to succeed, or whether it is simply put forth for popular effect. They may thus save some of their money, and escape the abuse of officials whom they seek to serve.

Shall Cabinet Officers have Seats in the House?

It is said that a committee is about to report favorably on the bill admitting the heads of the various departments to seats in the House, and giving each the right of speaking on any subject connected with their branch of the public service. Such a measure would remedy a great defect in our national system of legislation. There is no good reason why our Congress should be the only representative body of any nation that is deprived of personal communication with those to whom is intrusted the administration of the affairs upon which the body legislates. This system, which is peculiar to ourselves, sprang from a jealousy of the Executive power. It was fancied that the personal participation of the cabinet officers in the debates of Congress would give the President undue influence. We do not believe that any such effect would follow. The assumption implies that the representatives of the people either have not understanding, to save them from being cajoled, or have not firmness to save them from being intimidated. If it is indeed true that our representatives must be fools or cravens, who have to be specially guarded, lest they be deceived or daunted, the sooner we give up the representative system altogether, and take an autocrat for a ruler, the better. The representation that has no more character than that would indicate, is worse than nothing.

The change would, in fact, reduce Executive influence, because it would make the Executive power more directly accountable. Everybody who knows anything of foreign parliamentary bodies, knows the effective use made by the opposition of *interpellation*. Any member, after notice, has a right to ask an explanation from a minister on any point connected with the discharge of ministerial duties; and, if he is skillful and pressing enough, he is very likely to uncover the malfeasance, if it really exists. This power of interpellation is really the most formidable of all weapons against a corrupt or incompetent Government. Our resolutions of inquiry are but a miserable substitute for it. The head of the department sends in such a reply as he pleases; and though it may be ever so evasive or insufficient, it almost always ends the matter, and nothing more is heard of it. Nobody thinks of following up the investigation, as would almost certainly be done if it could be prosecuted by personal questions addressed to the Secretary on the spot, instead of requiring new resolutions of inquiry. Imputations are constantly made in both branches of Congress against this or that department, which elicit a great deal of excited talk on both sides of the chamber, without result, and which might yet be settled by a mere word from the head of the department, if he were present to answer. We had an instance, a day or two since, in the House debate on the Army Appropriation Bill. The sitting was mainly taken up in bandying words to and fro on a charge by an opposition member, Mr. KERNAN, of this State, that the War Department used its funds to transport Washington clerks and other civilians, in large numbers, to Pennsylvania, to vote at the last election. He gave as his authority for the statement a clerk in the Transportation Bureau, whose name he would not communicate. The statement was denied by the Administration leader, THADDEUS STEVENS, and denounced as a calumny. Yet he could not, any more than Mr. KERNAN, assert anything of his personal knowledge, and the long war of words which ensued amounted to nothing. Had Secretary STANTON a seat in the House, he might have been questioned, and the whole point would have been settled completely in two minutes, instead of not being settled at all in two hours.

But the proposed change would have a higher value yet. It would not only greatly facilitate the holding of our Administrative chiefs to a strict account, but would greatly promote the enlightenment of Congress upon the subject-matter of its legislation. If the heads of the various departments are worthy of their places, they know more of the affairs of their departments, and of the demands of the public service, than any other men do or can. They are better able to make a full and clear exposition upon matters that relate to their sphere of duty, and to meet all doubts and objections, than any other persons. The Secretary, under the present system, if an Administration Bill is before the House or Senate, has to make some committeeman his spokesman—a committeeman who is apt to be very imperfectly informed, and who perhaps lacks the natural ability or the education to do justice to the topic. This deficiency is particularly liable to manifest itself, and most injuriously, too, on financial questions. We do not think we shall be wronging the House in saying that there are not twenty men in it, who are even tolerably versed in financial principles. The late debate in the House on the Gold Bill, and its first vote thereon, which so convulsed our market, followed soon afterward by a vote directly contrary to that first given, is a striking illustration of the crude financial notions which determine the action of the House. The mass of its members are not to be blamed for this. They have not been long enough in public life to make finance a study, and their former pursuits were not of a nature to acquaint them with it by practical experience. They might as well be censuredd for not understanding theology or surgery. But they know enough to understand a financial principle and financial facts, when clearly set forth; and we contend that the public advantage requires that the public servant who is best qualified shall do this. The same necessity exists, in greater or less force, in respect to every department of the Government. The chiefs of all of them are supposed to have special facilities and qualifications for shedding light upon every subject that appertains to their branch of the public service.

In the isolation of the heads of the departments, the House frequently is left without even the slightest knowledge whether a bill before it is or is not in harmony with the views of those who have the responsibility of administering the Government. In the debate on the Gold Bill, it was positively asserted, by some of its opponents, that the Secretary of the Treasury asked for no such power as the bill accorded; and it was not for days afterward that it transpired that the measure was specially desired by Mr. CHASE, that he might baffle the gold speculators. It is time that this groping in the dark, or in the uncertain light reflected at second-hand, should cease. It is the business of Congress, which legislates upon such tremendous interests, to avail itself of every means of understanding all the facts and principles involved. It cannot do this without putting itself in more immediate relations with the public officials who have the best knowledge of the subject. When it has thus faithfully used these means of information, then its duty is to discuss and decide, without fear or favor, as its enlightened judgment shall dictate.

The South and its Ruling Class.

Nobody who read the speech of Gov. VANCE, of North Carolina, which we published on Saturday, can help seeing that whatever the feelings of the people at the South may be, the leaders are bitterly and terribly in earnest. He makes much of the desire of his audience either to return to the Union or remain neutral. He admits that they are in a bad scrape, but asks them jeeringly how they propose to get out of it. He assures them that the provision of the Confederate Constitution permitting secession, on which some of them propose to rely, is a delusion and a snare; that the Confederate Government would certainly permit their withdrawal, but only in order that their assumption of the character of a foreign Power might authorize their being attacked and cut to pieces. He tells them that come what will there can be no peace for them until the whole Confederacy is either victorious or vanquished, and that their complaints, either of the war or of the rebel Government, are but as the idle wind; that willing or not willing, their blood and money must be forthcoming as long as JEFFERSON DAVIS is pleased to call for them.

We have little doubt that this is the language of the leaders, not only in North Carolina, but in all the other rebel States. The master minds of the rebellion will never give up the struggle as long as they can force or cajole a single regiment into the field; and the position they are able to take in this matter is a striking illustration both of the strength and weakness of an aristocracy. What the Vances, and Toombses, and Davises, and Browns say at the South, has a great deal more force and meaning than what any similar number of prominent men could say at the North. Individuals count for more in the game of politics there than they have done here for over half a century. It is a very common thing for a political man in the South to announce himself on his own mere motion as a candidate for Congress or the Legislature, just as happens in England. If any one placed himself in such a position at the North, he would be laughed at for his conceit and presumption. And as the mass of the people at the South read little, most of them owe their political knowledge to the stump speeches of leading slaveholders and their sons. It is not a good mode of learning, certainly. It has every vice that any system of instruction ever had. But its effect in strengthening the influence of the ruling class is inevitable. It gives them complete control over the opinions of the electors, and consequently secures to themselves the control of public affairs, generation after generation. Two or three men from each State are able to pledge it to any course of action, however wild or wicked, with almost absolute certainty.

And in a desperate struggle an aristocracy has points of great strength. It secures unity and secresy to a degree unknown in democracies. It possesses enormous strength of will, because it is made up of the wills of a few men who have made the art of having their own way the study of their lives. It brings an amount of cold, calm, passionless reflection to bear on public affairs, which, in a democracy, is almost unattainable. The result is that what resources it possesses it uses with great skill. It is safe to say that no institutions, and no state of society, except those that actually exist in the South, could have extracted from it the prodigious amount of exertion which it has made during the last two years.

But, on the other hand, an aristocracy uses up the national strength far more rapidly than the nation it rules generates it. The force it exerts is apt to be purely nervous, and though prodigious for a short effort, it is apt to spend itself speedily. The development of vigor in the leaders is not attended by corresponding vigor in the led; and the downfall of an aristocratic government is generally attended by symptoms analogous to those seen in that species of paralysis in which the brain remains clear and active after the lower part of the body is dead.

It is very probably the appearance of these symptoms of paralysis in the lower limbs of the Confederacy which led to the passage of the late rebel Conscription Act. The conversion of the entire population into an army supplies the chiefs with a galvanic battery of immense power, and their resort to it proves that they are determined to resist us as long as a single spasm can be got out of the Southern people. Why should they not? What has any Southern man of influence to gain by returning to the Union, putting the Amnesty Proclamation out of the question? What has he to lose by fighting on? And what temptation could we offer him to lay down his arms that would not injure us and prejudice our cause far more than it could possibly benefit him? We could not possibly commit a greater crime than enter into any arrangement that would countenance the belief that the greater and bloodier a rebellion the smaller the crime of exciting it, and that a traitor has only to resist stoutly to resist with impunity.

GOOD FRIDAY.—A very large number of the Protestant clergymen of New-York have united in a public proposition to secure a general agreement among the Christians of this City in the observance of Good Friday this year. The names appended to the document represent not only Episcopal clergymen, but many of the most distinguished divines of the Presbyterian, Methodist, Baptist, Dutch Reformed, Lutheran and other denominations, together with theological professors and heads of the great religious societies. They conjointly agree to observe a day so widely observed throughout the Christian world, not only "in solemn remembrance of the crucifixion of our Lord," and the unity of their faith thereupon, but as a "day of fasting, humiliation and prayer, in view of our national troubles," impelled thereto by "our sins as individuals and as a people, the intense worldliness among us, the rapid and appalling growth of luxury and extravagance, with all their attendant evils, and these in the midst of the direst calamities and chastisements that can befall a people."

The signers to the proposal say that, in order to avoid any appearance of assumption, they confine their suggestion to the churches within the limits of this City; but there is a movement of like character and purpose in Brooklyn, which has been taken up with equal cordiality by the ministers of that city.

Good Friday, as our readers are aware, falls on the 25th instant, or day after to-morrow, and from the general movement of the clergy in this matter, we doubt not it will be duly observed in the great body of the churches. This movement and this memorial furnish additional evidence of the present tendency toward a closer unity among Protestant Christians.

THE QUOTAS OF THE SEVERAL STATES.—The Provost-Marshal-General yesterday issued an important statement, showing the exact account of each State, on the 1st of March, 1864, as regards the filling of the quotas under the several calls for troops. This statement is very conclusive. The credits to the States include everything but the veteran reënlistments, and the "deficiency" includes the number for which the States are yet in arrears to the Government on previous calls. From this statement it will be seen that Illinois is the only State whose quota under *all* calls is full—and she has, it seems, twelve thousand *surplus*, not counting veteran enlistments at that. Several other States are nearly full, viz., Indiana, Kansas, Connecticut, Rhode Island, Vermont and New-Hampshire; counting the veteran reënlistments, their quotas will all be full, and most of them will have a surplus for future demands. But the populous States of Massachusetts, New-York, New Jersey, Pennsylvania, Ohio and Kentucky, are largely behind. In the cases of New-York and Pennsylvania, the credits are not yet computed, but the total quota and deficiency is, in the case of New-York, nearly 60,000; and in the case of Pennsylvania, nearly 75,000. The figures are quite instructive.

AMUSEMENTS.

OLYMPIC THEATRE—BUCKSTONE'S comedy of "Leap-Year" was produced here last evening with very decided success. It is familiar to our theatregoers, and on some occasions has been rendered more judiciously and harmoniously than by the members of Mrs. WOOD'S company. There were, however, exceptions to this remark. The fair manager is a host in herself, and cannot be surpassed or approached by any other artist on the Metropolitan stage. Her impersonation of the rollicking, good-natured, match-making *Miss O'Leary*, was hearty and spirited in the highest degree, and was the main element of the evening's success. Miss HENRIETTA IRVING supported Mrs. WOOD in several expensive dresses. Her delivery of the language of the part was not always accurate—in an elocutionary point of view, seldom. There can be no reason for twisting up the end of each sentence into a vocal query where no question is at issue. The practice is one of the least admirable of MATILDA HERON'S many affectations. In its way it is as bad as the extraordinary nasalities and high tragic-twang of Miss WALTERS—an intelligent and painstaking young artist in other respects, but intolerable from this East-side and Museum vice. How enjoyable is the contrast afforded by Mrs. SEDLEY BROWN! This pleasant and pert interpreter of buxom chambermaids, although by no means blessed with a good speaking voice, contrives, by a quiet adherence to honest nature, to give more significance to her lines than the most vociferous of her companions. She was admirable as *Miss Crisp*—a little over-dressed, perhaps, but still admirable.

Mr. MORTIMER played very acceptably as the sham footman *Walker*. He is an excellent artist. We cannot say the same of Mr. FRANK DREW. The vociferous style of this gentleman is hardly adapted for so small an establishment. He has no idea of quiet humor and but a limited knowledge of the English language. The last objection would be immaterial if he confined himself to the text. But he prefers to improvise, and the consequences are disastrous. Mr. STODDART was very good as *Sir Solomon*. It was the best sustained part in the play. The *Mouser* of Mr. CLARKE was the worst. Mr. PARSLOE was a good boy-in-buttons, and, for a wonder, kept within the modest range of his abilities. The laughs which he obtained by a few cheap gyrations on his entrance and exists came honestly to him as just tributes to a tradition of the stage. Mr. BERRY, in a small part, gave indications of a rising actor.

The piece was capitally put on the stage. The dresses, with the exception that they commenced with the past century and ended with to-day, were new and brilliant. The acting was spirited and kept the audience in constant good humor. There are excellent social and domestic points in the dialogue, brief lessons of life, that were seized with great pleasure by the audience. The play was a success, and will be repeated until further notice.

WALLACK'S THEATRE.—Mrs. JOHN SEFTON—an admirable member of Mr. WALLACK'S company—takes her benefit here to-night. The standard comedy "The School for Scandal" is announced—a work which never fails to draw a full audience.

BARNUM'S MUSEUM.—Under the name of "Aphrosa, or the Spirit of Beauty," Mr. BARNUM has revived a well-known musical spectacle, ("Satanella,") producing it with a degree of care and fullness that entitles him to the greatest praise. The stage of the Museum is not very capacious, but in this piece it is so handsomely filled that the eye is fully satisfied, and barely notices its diminutiveness. The scenery is excellent, the dresses are gorgeous, and the fairy business is managed with much nicety. The drama, which is somewhat long, receives the best of treatment at the hands of the company, and the entertainment may safely be referred to as one of the best that Mr. BARNUM has provided for many months. It is already in its third week, and, judging from the applause bestowed upon it yesterday, it is in a fair way to run for several weeks more. The concluding tableau is a pretty effect, produced by throwing strong rays of colored light upon the spray of a jetting fountain of real water. The prismatic flashes that are thus evoked are very charming. Between the acts of the spectacle the glass, the dwarf, the improvisatore, and the Tyrolean (a swain who plays upon three pipes at once, using—rather unpoetically—his nostrils for two of them) disport themselves, and fill the audience with glee.

DISTRESSING INCIDENT AT SEA.

Loss of the Captain, Second Officer and Three of the Crew of the Brig Diana—The manner of their Death Surmised.

There arrived at this port, yesterday, the brig *Diana*, of Jersey, ARTHUR, (late TOUZEL,) Rio Janeiro 63 days, with coffee to E. D. MORGAN & Co. Feb. 8, at 7:30 A. M., Las Roccas, bearing W. by S., distant 10 miles, saw a wreck on the rocks. Capt. TOUZEL made up his mind to go and see what it was; at 10 A. M. anchored to the westward of the Roccas; got the two boats out and proceeded on shore; went up to the wreck, which was named *Glentanner*, of London, and began to work about it till 6 P. M.; loaded the tugboat and proceeded to the brig. Capt. ARTHUR says:

I being in the gig, did not find it prudent to venture in passing through the heavy breakers that continually beat upon the rocks. The Captain, (TOUZEL,) in the jolly-boat, succeeded to pass, and came on board at 7½ P. M., very anxious to know what had become of me and my boat's crew. We remained on the beach all night. At 5 A. M., being high water, we launched the boat into the sea, and succeeded in getting on board. At 6½ A. M. we set off again for the wreck, and succeeded to get on board. On the 12th, Capt. TOUZEL, second mate and three of the crew went in the jolly-boat to fetch the remainder of the tools they had left on the wreck. The Captain having given me orders to get everything ready for sea, said, "We shan't stay long." At 7 P. M., being the usual hour for the boat to come on board, no boats nor anything were seen; thinking that they had found the breakers so rough they had made up their minds to stop on shore until the following morning, got the signal lantern up, blowing at the time stiff, and heavy rain at the time. At 6 A. M. Saturday, 13th inst., seeing no boats nor any signal of any of them, got the gig out, with four hands, took a musket and spy-glass and pulled for the shore; went close in, but finding the sea to be breaking so tremendously would not venture to land. We rowed along the rocks and beach looking all around; fired two musket-shots at different stations; went up as far as the wreck, but could see nothing of the boat; we therefore came on board, very anxious to know what became of the poor unfortunates. At 6 A. M., weather being more moderate, set off again in the gig, she being in a very leaky state, having her two top port planks smashed. We succeeded in landing, and walked along the beach and rocks in search of them, but could see nothing. We went up to the wreck, found the tools and everything, as I suppose they had left the previous day. Took some of the tools and finding the tide to be rising at a rapid rate, we had no time to lose to get to the boat, having had to cross water under our arms to get to the gig. We therefore launched the gig and went on board, hoisted her up, and could not make up anything else but that the boat and crew it contained had capsized or come across a heavy sea in landing, where the unfortunate persons found their last end. On Monday, 15th, seeing no use by waiting any longer, weighed anchor with the remainder of the crew, (seven in all,) made sail, and proceeded for our destined port. The following are the names of those who were in the missing boat:

Capt. EDWARD PHILIP TOUZEL, aged 37 years, and a native of Jersey; FRANCIS DUHAUME, aged 23, native of London; and Second Officer JOSEPH NAPOLEON LANDRY, aged 26, native of Carleton, Lower Canada; JAMES O'NEIL, aged 26, native of Nova Scotia; HENRY BROWN, aged 17, native of Dundee, Scotland.

GENERAL ORDER, No. 3.—In compliance with Division Orders, this regiment will parade on Wednesday, 23d inst., as an escort upon the arrival of the First Regiment New-York Engineers, who return on furlough, having reënlisted. The distinguished services of this regiment entitle them to a hearty welcome. Regimental line will be formed on Lafayette-place, at 1 o'clock P. M. The Children and the Fair.

The Children's Department of the Metropolitan Fair will be one of the specially attractive features. The little ones will occupy a liberal share of the building erecting on Seventeenth-street and Union-square. There will be abundance of room for display of all articles, and beside this there will be a stage for tableaux, singing, &c., &c. Mrs. JAMES B. COLGATE has taken an active interest in this department, and it will be a decided success. The building is being rapidly completed under the supervision of P. B. WIGHT, Esq., architect, and will accommodate twenty-five hundred children. All who feel disposed to contribute to the display the little ones are anxious to make—and who does not feel so disposed?—can send articles to the Moffat Building on Seventeenth-street, opposite Union-square. This building has been generously tendered by Mr. R. E. MOUNT, executor of Dr. MOFFAT'S estate. Do not forget the Children's Department.

Morton's Gold Pens are now sold at the same prices as before the commencement of the war: this is entirely owing to the Manufacturer's improvements in machinery, his present large Retail Business and Cash-in-Advance System; for, until he commenced advertising, his business was done on Credit and *strictly with the Trade.*

The Morton Gold Pens are the only ones sold at old prices, as the makers of all other gold pens charge the premium on the Gold, Government Tax, &c.; but Morton has in no case changed his prices, Wholesale or Retail.

Of the great numbers sent by mail to all parts of the world during the past few years, not one in a thousand has failed to reach its destination in safety; showing that the Morton Gold Pen can be obtained by any one, in every part of the world, at the same price, postage only excepted.

Reader, you can have an enduring, always ready, and reliable Gold Pen, exactly adapted to your hand and style of writing, which will do your writing vastly cheaper than Steel Pens; and at the present almost universal High-Pressure Price of everything, you can have a Morton Gold Pen cheaper, in proportion to the labor spent upon it and material used, than any other Gold Pen in the World. If you want one, see "The Pen is Mightier than the Sword." in another column.

DEAFNESS AND CATARRH CURED.

No. 420 SIXTH-AV., NEW-YORK, Dec. 2, 1863.

I was deaf for several years, and hearing of the great cures performed by Dr. Von Eisenberg, I was induced to place myself under his care, and I am now happy to state that my hearing was entirely restored after a short treatment. I was also suffering from chronic catarrh, of which I was also cured by the skillful treatment of Dr. Von Eisenberg. I do but justice to the Doctor in stating that in treating me he displayed that skill and knowledge which have already procured for him such a deserved reputation, and that the principles which direct his system of curing Deafness and Catarrh are such as to render success certain, in my opinion. Many months have passed since Dr. Von Eisenberg restored my hearing, and it continues as good as ever.

CATARRH CURED.

READ!

I have been suffering for a long time from a severe Catarrh, with a continual dullness in my head, a tightness across my chest, a weight over my eyes, which were weak, watery, and very painful. My nostrils were constantly obstructed with a pouring fluid. That frequent sneezing, hoarseness of my voice, often attended with a fullness of my throat, great soreness, and a continual dropping. Dr. Von Eisenberg has cured me of all these disagreeable sufferings. I may, indeed, say that I feel a new life. The treatment of Dr. Von Eisenberg is as skillful as it is successful. It is in my opinion impossible to overrate the benefit I have received at his hands. I heartily recommend any one suffering like myself to place themselves under Dr. Von Eisenberg's care, with a certainty of being speedily cured.

HARLEM, July 30, 1863.

I have been deaf for over TWENTY-FIVE YEARS, and Dr. VON EISENBERG operated on both of my ears without the slightest pain—a thing that I could not believe could be done. I now *hear* well, and feel as I never felt for the last twenty years. The dexterity and skill with which the operation was performed evince the highest practical ability. *I hear perfectly.* It is now over a month since the operation, and I continue to feel as well as ever.

WILLIAM LIDDLE,

No. 134 ALLEN-ST., NEW-YORK, Feb. 9, 1863.

I have been completely deaf in one ear, and partially so in the other, for above seventeen years, with a disagreeable discharge from both ears, combined with continual rumbling noise in the head, for which I have been treated by a most eminent practitioner in the City without the slightest relief.

I consulted Dr. Von Eisenberg, but I must candidly say that I had no faith in his success when I did so. It is, therefore, due to Dr. Von Eisenberg to acknowledge that I am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an unrivaled reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that it is not only superior, but the principles which direct his mode of restoring the hearing are, in my opinion, certain. JOHN TAYLOR.

NEW-YORK, July 19, 1863.

This certifies that my mother has been for some time afflicted with partial deafness, suffering from pain, and rumbling noises in the head, together with other indications of a *total loss of hearing.* Dr. Von Eisenberg removed from her ears a great quantity of matter, together with coagulated blood, relieving her instantaneously, and all without pain. It is with grateful thanks that I give this testimony to his skill.

CHRONIC CATARRH CURED.

READ.

NEW-YORK, March 26, 1863.

"This is to certify, that I have suffered from very severe CHRONIC CATARRH, with a dull heaviness in the head. I felt my nose completely stopped up accompanied by continual soreness of the throat, the chills stealing over me with occasional hot flushes, a great tightness of the chest and pain, so much so, that every one thought it was consumption. Having heard of the great cures performed by Dr. Von Eisenberg, I consulted him with but little hope of acure. I am now happy to be enabled to add my testimonial to the great number already in the Doctor's possession, as to his scientific and successful mode of treatment, as he has shown in my case that skill and knowledge which have procured for him so great a reputation. I am so entirely restored to perfect health that I do most sincerely recommend all sufferers from CHRONIC CATARRH and SORE THROAT to apply at once to Dr. Von Eisenberg with a certainty of being cured."

HEALTH OF AMERICAN WOMEN.

Office of The Graefenberg Company, No. 139 William-st., (near Fulton,) New-York.

Under the above heading, Dr. J. F. Bridge (Secretary and Resident Physician of the Graefenberg Company) addressed a series of letters, some years ago, to the medical profession and to the public, which attracted great attention to the Graefenberg Company's Uterine Catholicon, (Marshall's.) The alarming extent, in every age and condition of woman's life, of the complaints, commonly known as "female weakness," together with the constitutional symptoms, such as nervousness, deranged digestion, headache, &c., and the fact that there was no remedy for them until the discovery of this Catholicon, induced extensive trial of the remedy.

Fortunately for suffering woman, the expectations induced by scientific analysis were more than fulfilled upon trial. Ninety-five out of every hundred cases have been entirely cured, and the few cases where great age or absolute physical injury to vital organs have prevented a complete cure, the symptoms have been much relieved.

CERTIFICATES.

I have practiced medicine in this village some ten years. During the entire time I have observed the action of the Graefenberg Company's Uterine Catholicon Marshall's,) in cases of Female Weakness. I take great pleasure in stating that I have known many complete cures effected by taking two or three bottles, and have never known an instance where it did not give complete satisfaction. S. RAMSEY, M. D.

REDSBURGH, Wis., Dec. 23, 1863.

My daughter, aged 17, had been ailing about three years, and had become so debilitated that she could hardly go across the house. She is now well, and it is the Graefenberg Uterine Catholicon that has done it. I can recommend it as the best medicine in the world for what it is recommended. LEWIS RUSSEL.

BERLIN FALLS, N. H., July 15, 1863.

☞ From the age of 15 years upward the Catholicon will be found certain to relieve the common troubles of all women. It is confidently offered as the only certain remedy known.

☞ The above Catholicon was first offered to the world by the Graefenberg Company, and called "Marshall's," in connection with the name of Dr. Theo. Pomeroy, of Utica, (now deceased,) as its original discoverer. The proprietors of the Graefenberg Company have from him and his estate the sole right to issue it.

IN THE YEAR 1863.

Consumption has destroyed more of the human family than any other disease, and the best physicians for many years have despaired of a cure, or a remedy that would heal the lungs; but for more than two hundred years the whole medical world has been impressed that there was a mysterious power and efficiency in the Pine Tree Tar to heal the lungs; therefore they have recommended the use of Tar Water, which in many cases has a good effect; but how to combine its medical properties so as to heal the lungs, has ever been a mystery until it was discovered by Dr. L. Q. C. WISHART, of Philadelphia, Penn., the proprietor of Wishart's Pine Tree Tar Cordial, and has been put in bottles, patented by the United States Government. We say to the afflicted that Dr. WISHART'S Pine Tree Tar Cordial will produce the INVIGORATION OF THE DIGESTIVE ORGANS, THE STRENGTHENING OF THE DEBILITATED SYSTEM, THE PURIFICATION AND ENRICHMENT OF THE BLOOD, which must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part, relieving the pain, subduing inflammation and restoring a healthful tendency. Let this two-fold power, the healing and the strengthening, continue to act in conjunction with nature's constant recuperative tendency, and the patient is saved, if he has not too long delayed to resort to the means of cure.

There is not a medicine discovered that has so much power to dissolve the thick mucus that stops up the wind passages of the lungs as the Pine Tree Tar Cordial, which subdues the fever and inflammation that destroy the power and vitality of the lungs and consign the patient to the grave. We say to all whose lungs are affected, use Dr. Wishart's Pine Tree Tar Cordial with great confidence, as it has restored thousands of cases to health that were hopelessly given up to die.

Is a great remedy for chronic croup and diphtheria, which is sending thousands and thousands of children to a premature grave. It can be cured by Dr. Wishart's Pine Tree Tar Cordial.

Out of ten thousand cases where it has been tried in the past two years, it has never missed a case where it was taken in time. All families should have it on hand, as it gives instant relief in croup and diphtheria.

The Pine Tree Tar Cordial gives instant means relief in cases of asthma and whooping cough. It often cures whooping before it runs half its course, as it acts at once upon the phlegm and mucus, and expels them from the throat, and the sufferer is relieved. In case of asthma use Dr. Wishart's Dyspepsia Pills with the Cordial, as they have never been known to fail to cure that disease.

Beware counterfeits. The genuine has the name of the proprietor and a pine tree blown in the bottle. All others are spurious imitations. Price, $1 per bottle, or $8 per dozen.

In this number of *Harper's Magazine* is commenced the publication of DENIS DUVAL, the story upon which THACKERAY was engaged at the time of his death. Of this CHARLES DICKENS says: "*In respect of earnestness of feeling, far-seeing purpose, character, incident, and a certain loving picturesqueness blending the whole, I believe it to be much the best of all his works.*"

By special arrangement with Mr. CHARLES DICKENS, a new novel by him will be published in *Harper's Magazine* simultaneously with its appearance in England. The publishers hope to commence the issue of this novel in the Magazine for May.

HARPER'S MAGAZINE has contained several of the best Serial Novels of Bulwer, Dickens, Thackeray, Lever, Trollope, Reade, Miss Evans and Miss Mulock, besides Essays, Tales and Poems from the foremost American and British writers.

Historical and Biographical Papers, especially those relating to American subjects, have formed a distinctive feature of the Magazine.

The results of the Explorations and Adventures of the most distinguished travelers have been presented in careful abstracts.

The Editorial Departments comprise a careful summary of the history of the times, with comments upon the current topics of thought and remark.

Wherever Pictorial Illustrations could add to the value or interest of an article, they have been freely used. The Magazine has contained nearly nine thousand engravings.

The Magazine gained at once the foremost rank among American periodicals, and its circulation has for years exceeded, as it now exceeds, that of all other periodicals of its class issued in the United States. No effort or cost will be spared by the Publishers to insure that the Magazine shall maintain the position which it has won.

The Twenty-seven volumes of the Magazine contain matter equivalent to more than two hundred duodecimo volumes. Most of this is of permanent value. A complete set of the Magazine will, therefore, be a desirable acquisition to any private, public or school library. The Publishers will furnish these sets, neatly bound in Cloth, for One Dollar and Eighty eight Cents per Volume—$50 76 for the whole, net cash, the freight to be paid by the purchaser. The same amount of matter, with an equal number of illustrations, issued in ordinary volumes, would cost more than Three Hundred Dollars. Any single volume will be sent by mail, *post-paid,* to any part of the United States, for Two Dollars and Fifty Cents; or any single Number for Twenty-five Cents.

FORTY YEARS' EXPERIENCE.—AFTER A personal experience of forty years, the settled conviction remains that if the blood is pure the health will be good.

Pure gold cannot make base currency, neither can pure blood make bad bone, bad flesh, or unsightly skin. The whole will be beautiful in form, and the texture and skin will be perfection.

This is not all, health will be restored when BRANDRETH'S PILLS are used in season; the external or internal tumor will be removed by absorption, or it will sweat away, or it will be removed, if internal, sometimes at once. Perseverance is sure to cure, and this is a truth established beyond the power of malice to deny.

PURGATION WITH
BRANDRETH'S PILLS

assists nature to reform or complete her work. If the sick make prompt use of them, their sickness will usually be of short duration, and every man, every soldier especially, should be provided with this excellent and reliable vegetable innocent remedy.

TUMOR REMOVED.

Mrs. Woodhull, wife of Mr. Samuel Woodhull, of Lockport, N. Y., had for fifteen years been in a delicate state of health, and had used almost every popular remedy, and had the best medical advice, without permanent benefit. At her request her husband purchased a box of BRANDRETH'S VEGETABLE UNIVERSAL PILLS, and she took them according to the printed directions. She continued using them until five boxes were consumed, having never taken over five pills at a single dose. Being laid up with a distressing nervous headache, (a common occurrence,) she took, by the advice of her husband, seven pills. The next morning they operated freely, and brought away a large knot of fleshy substance and tough as hide, about three and a half inches in circumference. She says she felt something part or separate on its discharge. From this time she gained her health rapidly. She continued to take the pills as her convenience would permit, and several large

CHICAGO AND GREAT EASTERN RAILWAY COMPANY,

FIRST MORTGAGE BONDS,
FOR $2,000,000.

SUBSCRIPTION BOOKS OPENED WITH Messrs. SCHUCHARDT & GEBHARD, Bankers, No. 21 Nassau-st., New-York.

The Chicago and Great Eastern Railway Company now offer for sale one million one hundred thousand dollars of their first mortgage bonds, in sums of one thousand dollars each, maturing in thirty years, bearing interest at the rate of Seven per cent. per annum, payable in the City of New-York, on the first days of April and October, in each year.

These bonds are secured by a first and only Mortgage on the property, income and franchises of the Railway Company, executed to Frederick Schuchardt and Henry Morgan, of the City of New-York, Trustees.

The remaining nine hundred thousand dollars of the Bonds are set apart and remain in the hands of the said Trustees, for the purpose of being exchanged for the indebtedness of the Chicago and Cincinnati Railroad Company, running from La Crosse to Logansport; this effected, the $2,000,000 will form a First and only Mortgage on a line of road 110 miles in length, extending from Chicago to Logansport, where it connects with the Cincinnati and Chicago Air-line Railroad, forming the shortest line, by 40 miles, between Chicago and Cincinnati, and by 36 miles the shortest line between Louisville and Chicago.

It will also open, in connection with roads now in operation, entirely new and very direct lines from Chicago to New-York, Philadelphia, Baltimore, and all Eastern cities. The distance between Chicago and New-York by this route being shorter than by either of the existing lines via Dunkirk or Buffalo.

The road is now under contract, and the most strenuous efforts are being made to have it open for traffic during the Summer of 1864.

The interest on the Bonds maturing during the progress of the work has been provided for, and will remain on deposit with the Bankers of the Company. PRIVATE DISEASES CURED IN THE shortest possible time, by DR WARD & CO., No. 50 Lispenard-st., near Broadway, without the use of Mercury, loss of time or change of diet. DR. WARD, from the hospitals of London, Paris, and Edinburgh, is the discoverer of the only certain and reliable remedies for the cases of a private character. In 28 years' practice he has cured more cases of Secret Diseases and Wrong Treatment than all others combined. I can and will cure you in less time and at less expense than any other can or will, and those who have been robbed of their money and health call: it will take but a little money and time to restore you. If you have been unfortunate, call at once. By his special experience in this much neglected branch of medical science, he is enabled to guarantee a cure in the most complicated cases. Recent cases of Gonorrhœa or Syphilis cured in a few days, without change of diet or hindrance from business. Secondary Syphilis—the last vestige eradicated without the use of Mercury. Involuntary emissions stopped in a short time. Sufferers from Impotency, or loss of sexual power, restored to full vigor in a few weeks, permanently and speedily cured by a new treatment. Persons at a distance failing to receive prompt treatment elsewhere, may get a permanent cure effected by writing a full diagnosis of their case, addressed to Dr. WARD, No. 50 Lispenard-st. Call, send, or write.

SPEEDY RELIEF AND SURE CURE GUARANTEED.—Therefore, let no false delicacy prevent your immediate application to Dr. POWERS. Dr. POWERS, successfully consulted with Dr. WARD No. 50 Lispenard-st. Conducted on the plan of the Hospital des Veneriens, Paris, where those afflicted with any form of private disease can receive prompt treatment, without risk or exposure, viz.: Syphilis, gonorrhœa, gleet, strictures, ulcers, tumors, cancers, secondary and constitutional syphilis, diseases of the kidneys, &c. Thirty years of extensive practice, exclusively devoted to the treatment of those complaints, enable us to effect cures in cases where others of less experience have failed. Dr. Powers' Essence of Life restores the vigor of youth in four weeks. This marvelous agent restores manhood to the most shattered constitution—blasts all humiliations, impediments to marriage, speedily cured. The men to consult. Drs. Ward and Powers, the champions and kings of venereal diseases, possessing the most certain, speedy and only effectual remedies in the world. Those who have used their preventives are never without. Send or a circular. To Ladies.—Dr. Powers' Periodical Drops are a safe and certain remedy for monthly irregularities. The above remedies sent by mail. The afflicted should read their circular. Postage free, on receipt of a stamp. Cures warranted.

AFFLICTED RESTORED! IGNORANCE EXPOSED! FALLACIES UNMASKED!—Highly important to both sexes, married or single, in health or disease. DR. LAMONT'S Paris, London and New-York Medical Adviser and Marriage Guide, 80th edition, over 400 pages, nearly 100 figure illustrations upon mental and nervous debility, urinary deposits, involuntary loss of semen, impotency, affections of the bladder and kidneys, genito-urinary diseases and their consequences, the anatomy of the sexual organs of the male and female, latest researches in physiology; European hospital practice; quacks, recipes and specifics; the author's unequaled Paris and London treatment, &c. Mailed for $1, closely sealed, by the publisher. E. WARNER, No. 1 Vesey-st., Astor House.

All who would avoid unsuccessful and barbarous treatment with mercury, copaiba, injections, cauterizations, quack specifics, antidotes, instruments, &c., should read this original book, or consult the Doctor, No. 173 Broadway, (up stairs,) N. Y., from 10 to 5.

"We concur with other papers in recommending Dr. Larmont and his work."—*Courrier des Etats Unis, Dispatch, Staats Zeitung, Atlas, Medical Review, &c.*

$1,000 FORFEITED AND NO CHARGE UNLESS CURED.—Dr. Hunter's Red Drop cures venereal diseases when regular treatment and all other remedies fail; cures without dieting or restriction in the habits of the patient; cures without the disgusting and sickening effects of all other remedies; cures in new cases in less than six hours; cures without the dreadful consequent effects of mercury; but possesses the peculiarly valuable property of annihilating the rank and poisonous taint that the blood is sure to absorb unless this remedy is used. This is what he claims for it; and what he other will accomplish. Its value in this respect has become so well known that scientific men, in every department of medical knowledge, begin to appreciate it; for hardly a week passes that he is not consulted by druggists, chemists and physicians in regard to some pitiful patient who has misused the whole field of the faculty, and still the disease will appear. It is for sale, and cannot be obtained genuine anywhere but at the old office, No. 3 Division-st., New-York City, since 1831. Eight separate rooms and a private entrance. A ten cent bill will secure the Monitor of Health by return mail.

Christian Circular.

Whereas, the day known as Good-Friday is widely observed throughout the Christian world, in solemn remembrance of the crucifixion of our Lord Jesus Christ for us men and our salvation, the undersigned hereby respectfully propose to their Christian brethren of this City a general agreement in that observance, on the coming 25th of the present month, being the day on which Good-Friday this year occurs.

The first object of the proposal, referring to the great fact and doctrine to which the day is devoted, is to declare, by our union in keeping it, the unity of our faith touching the sufferings and death of the Lord Jesus Christ, the Mediator, very God, very man, as the one atonement for the sins of the world.

The second object is to take advantage of the day for an occasion of fasting, humiliation and prayer, in view of our national troubles. Our sins as individuals and as a people, the intense worldliness among us, the rapid and appalling growth of luxury and extravagance, with all their attendant evils, and these, in the midst of the direst calamities and chastisements that can befall a people, call upon us, especially in this City, to humble ourselves before the Almighty Ruler, beseeching Him not to deal with us according to our deservings, to move us to a consideration of our ways, to give us of His Holy Spirit for repentance and reformation, and to turn to Him the hearts of the people, and so be pleased to remove from our land the judgments which we have justly provoked. For this purpose we deem a day appropriate which is already so extensively a religious one, and which, in the sacrifice of the cross, exhibits infinitely beyond all things else the exceeding sinfulness of sin, and the only meritorious ground of availing prayer and intercession.

The foregoing is submitted in Christian deference and love; it comes from brothers to brothers, and neighbors of the same city, within the limits of which, to avoid any appearance of assumption, it is confined.

tisement, on another page, of the New-York and Boston Silver Lead Company. Subscriptions are to be opened to-morrow, March 23, at the office of Messrs. Stebbins & Bloodgood, William-street, to the capital of the Company, under the auspices of several of our prominent wealthy people, such as Henry I. Pierson, John Steward and James H. Banker. The property, we understand, to be located in Pennsylvania.

The following is a statement of earnings of the Prairie du Chien Road for the week ending March 14:

	1864.	1863.	From Jan. 1 to March 14. 1864.	1863.
Freight	$7,548 20	$5,083 53	$164,804 15	$110,298 20
Passengers	8,602 04	3,765 21	80,412 29	42,391 80
Mails, Rents	981 00	1,040 63	9,588 96	10,096 55
Total	$17,131 24	$9,889 37	$254,805 40	$162,786 61

The Erie Railway Company have contributed $5,000 to the Metropolitan Sanitary Fair, which ought to excuse the Road from concessions in the way of free passes to and from the Fair. We mention the fact, because of numerous individual applications on this score.

We gather from a paragraph in the *Journal of Commerce*, of this morning, that the First National Bank of this City is to be kept out of the Clearing-house because it has been made one of the fiscal agents and depositories of the Government. This very small piece of spite is, of course, leveled at the Secretary of the Treasury, who has thought proper to recognize and extend his confidence to the first organization in this City under the National Banking Law. We presume he will survive it. Meanwhile we take leave to say that not one of the Clearing-house Bankers engaged in this petty warfare ever rendered more efficient service in the financial support of the Government than the gentleman referred to by the *Journal* as the impersonation of the First National Bank, though we are not aware that he is even a Stockholder.

Messrs. Adrian H. Muller, P. R. Wilkins & Co., will hold their regular auction sale of Stocks, &c., to-morrow (Wednesday) at 12½ o'clock, at the Exchange Salesroom, No. 111 Broadway, by order of the executors of Philip Dater. See auction column.

The day's business at the Office of the Assistant-Treasurer, United States, New-York, was as follows: Total Receipts, $4,536,590 43, including for Customs, $259,000; Payments, $5,414,539 77; Balance, $36,154,475 13.

The week's exports of domestic produce and miscellaneous goods (exclusive of specie) from this port, have been to the value of $3,298,035, against $3.522,562 same week last year, and $2,236,613 the corresponding week of 1862.

The last weekly statement of the Philadelphia Banks presents the following aggregates, as compared with those of the preceding week:

	March 14.	March 21.		
Capital Stock	$12,837,050	$12,837,210	Inc.	$160
